

COMMERCIAL HEAT PUMP SPECIFICATIONS

Model name	CAHP-MC-19
GENERAL INPUT	
Voltage/Phase	380V/3N ~ /50Hz
Voltage range	380V±10%
Rated heating capacity	19.8kW
COP	4
Max. out put water Temperature	55°C
Rated water flow rate	3.4m ³ /h
Rated power input HP	6.02kW
Rated operation current	11.0A
Max. Power input	6.8kW
Max. Operation current	11.7A
Operation noise	60dB(A)
Refrigerant	R410A
Refrigerant charge quantity	2.8Kg
Refrigerant high pressure side	4.4MPa
Refrigerant low pressure side	3.1MPa
Water side design pressure	1.0MPa
Water side pressure drop	73kPa
Water connection size	DN32(R1 1/4)
Waterproof class	IPX4
Net weight	170Kg
Dimensions (L x W x H)	719x761x1160 mm

Note:

Nominal heating capacity test conditions for one-time heating: outdoor dry/wet bulb temperature is 20/15°C; water inlet temperature is 47°C; water outlet temperature is 52°C
